Dear Tara

Three Ireland 2100MHz Licences – Interchange of Channels

I refer to ComReg document 16/16 “Response to Information Notice 16/16 and decision concerning Three Ireland (Hutchison) Limited’s request for amendments to its 2100 MHz licences” (the “Decision”). This Decision confirms ComReg’s approval to give effect to Three’s Requested Amendments (as defined in the Decision) subject to Three unconditionally agreeing in writing to:

- such amendments of each of the A and B Licences as required to enable the timely divestment of 2 x 10 MHz of contiguous 2100 MHz spectrum in the A Licence as envisaged under the Commitments¹;
- to carry out the implementation of such amendments within the 6 month period identified in the Commitments (see paragraph 17 of same); and bear all costs in relation the implementation of such amendments (the “Condition”).

I confirm Three unconditionally agrees to the Condition. We now look forward to ComReg issuing two amended licences to Three reflecting the revised spectrum assignments as set out in Figure 1 of the Decision. .

Yours sincerely

David Hennessy, CTO

For and on behalf of
Three Ireland (Hutchison) Limited

¹ paragraphs 13 to 20 (inclusive) of Section E, “Commitment to Offer the Divestment Spectrum” of the Commitments available at: http://ec.europa.eu/competition/mergers/cases/additional_data/m6992_4894_3.pdf..
