<ul> <li>b) Location Details: Select a listed v.</li> <li>c) Equipment Details: Input quantitie</li> <li>d) Frequency Details; Select available</li> <li>e) Payment: by credit card</li> </ul> Note 1: <ul> <li>Note that whilst it is possible to mather application require engineering</li> <li>Note 2:</li> <li>Note that if your application include</li> <li>DTT Interleaved frequencies here b</li> <li>Note 3:</li> </ul>	enue, a non-listed venue using google maps or select a listed region es and types of equipment. le frequencies by equipment category, providing Max ERP values. ke an application which is licensed online, certain selections may require that input before the application can be licensed. es frequencies in the 470-790MHz band, you are advised to check the list of efore beginning your application.

**N.B.** There is a "Help" modal on each screen to provide further clarification on the inputs required.

#### Events:

Applications for certain events, because of the volumes of expected applications and the resulting demand for spectrum, will need closer monitoring prior to licensing. Examples of these events are shown below. (This list will be updated regularly byComReg).

If your application is for one of these events, it will need to be looked at by our engineers. Thismeans it cannot be licensed immediately (same day) but will be processed as soon as possible – on a first come, first served basis.

If your application is for an event other than those listed and there are no other "technical" complexities, you can expect that processing will be immediate.

From below, you must select your Event from either the list offered or select "OtherEvent"

Introduction Ceneral Information	Location Details	Equipment Details	Frequency Details	Confirm Details	Declaration	Payment
General Information						Help
Select your event and then enter details	s of the same. If y	our event is not on t	the list then select "(	Other Event".

### **Equipment Details**

#### Equipment Types

- a) **PMR Equipment** For base/mobile operation
- b) Wireless camera Handheld or otherwise mounted camera with integrated transmitter, power pack and antenna for carrying broadcast-quality video together with sound signals over short-ranges. This can be line of sight or non-line of sight depending on application and frequency band used.
- c) **Portable video link** Handheld camera with separate body-worn transmitter, power packand antenna.
- d) **Mobile video link** Video transmission system employing radio transmitters mountedin/on motorcycles, racing motorbikes, pedal cycles, cars, racing cars or boats. One or bothlink terminals may be used while moving.
- e) Body worn v Handheld A higher power is available for body-worn wireless Microphones

### Frequency Details:

-

Frequency/Frequencies are input separately for each equipment type in your application.

Go through each equipment type and select frequencies for each

N.B Base/Mobile/hand Portable are grouped under PMR

Select the equipment type – Each type has its own unique characteristics in sub-menus Enter the desired power in Watts (50mW = 0.05W etc) For PMR you also need to specify the type of channel required – Simplex orDuplex

#### Determine Available Frequencies

By clicking 'Determine Available Frequencies' the system will consider your request and assess possible interference to/from other users to produce a list of the available frequencies you may choose from.

Introduction General Information	Location Details	Equipment De	atails <b>Frequency Details</b> Confirm Details Declaration Payment
Frequency Details Select a category of equipment on the ight hand panel to add selected freq	e "Selected Frequ uencies to your a	encies List" an pplication, Repe	d then complete the "Select Frequencies" form on the eat for all equipment categories on the application.

			Bandwidth Determine Available Frequencies

#### Select Frequency/Frequencies

You may choose a single frequency or multiples per grouping. If you are working through a longlist it may be practical to add a single frequency each time.

- If a frequency is not available from within the Band/Sub-Band chosen it will not be resented. You should therefore select an alternative from the options presented.
- If you are looking for spectrum from **BANDS** other than those on offer you may tick the following option:

## Summary of Application Input Details

Once all the required frequencies have been selected the next screen shows an overall picture of what has been requested and the relevant fee.
