

NON-GEOGRAPHIC NUMBERS ARE CHANGING...

1800

0818

From 1 January 2022, there will be just two Non-Geographic Number (NGN) ranges:

1800

FREEPHONE

Calls to 1800 numbers are free.

0818

STANDARD RATE

Calls to 0818 numbers are included in call bundles that include calls to landlines.

Out of bundle 0818 calls are charged at the Standard Rate which is no more than calling a landline.

The 1850, 1890, and 076 number ranges are being withdrawn. If you use any of these as contact numbers, you need to switch to a new number:

- Contact your operator to find out your number options (1800, 0818 or geographic numbers).
- The charge to receive a 1800 call is now significantly reduced.
- In most cases, there is no charge to receive a 0818 call.
- Check different operators to find the best rates.
