Consultation - Framework for the Migration from Legacy Infrastructure to Modern Infrastructure amendments

Information Notice

Reference: ComReg 22/29

Version: Final

Date: 29/04/2022

1. On 25 March 2022 ComReg published a Consultation and Draft Decision Reference ComReg 22/13 Framework for the Migration from Legacy Infrastructure to Modern Infrastructure.
2. ComReg has been made aware of four incorrect cross references in the draft Decision Instrument in Appendix 1 of ComReg 22/13 as follows:
 - 2.1 Section 4.1 refers to “*other than in accordance with a Switch-off Plan as further described in Section 5*”. The reference to Section 5 should be replaced with Section 7.
 - 2.2 Section 9.3 refers to “Section 0”, this reference should be replaced with Section 9.2.
 - 2.3 Section 9.7 refers to “Section 0”, this reference should be replaced with Section 9.2.
 - 2.4 Section 9.15 refers to “Section 0”, this reference should be replaced with Section 9.2.
3. A revised version of the Consultation (22/13R) has been published and this version should be referred to in any submissions made to ComReg.
4. As the cross references do not amount to substantive changes to the Consultation, ComReg does not consider that extending the period for consultation is required.
