1 Introduction

The Data.ComReg portal provides a facility for entities to report monthly scam metric reports to ComReg.

*Combatting scam calls and texts*¹ document, decision Instruments D09/24, D10/24, D11/24, D12/24, D13/24, and D14/24 mandates relevant undertakings to provide ComReg with monthly scam metrics no later than 10 working days from the final day of the calendar month.

Using the Data.ComReg, [Scam Metrics](#) option, entities can upload their Call and/or SMS monthly metrics to ComReg.

This User Guide details the reporting procedures of the Data.ComReg - [Scam Metrics](#) portal.

Entities are to provide ComReg with monthly scam metrics no later than 10 working days from the final day of each calendar month.

¹ ComReg 24/24 Combatting scam call and texts, dated 03/04/2024
<https://www.comreg.ie/media/2024/04/ComReg-2424.pdf>

1.1 Scam Metric Process Overview

Using the Data.ComReg – Scam Metric portal, call and/or sms scam metrics can be reported (uploaded) on a monthly basis.

After initial Data.ComReg Account access, the monthly process for [Scam Metrics](#) is:

	<p>Download the latest Metrics Schema (template) via one of the following options:</p> <ol style="list-style-type: none"> 1. The Schema download option within the Data.ComReg portal - Scam Metrics - Current Data Request. 2. Web links to Schemas on the ComReg <i>Scam Call and SMS Metrics Guidance</i> web page. 3. API links to Schemas <p>Note: It is good practice to download the latest schema every month.</p>
	<p>Complete the Metrics Report (fill in the schema).</p> <p>Supported formats are:</p> <ol style="list-style-type: none"> 1. Excel XLSB (Binary) 2. XML <p>Note: for SMS Metrics the Excel XLSB can accommodate up to a maximum of 20,000 SMS Sender IDs.</p>
	<p>Submit (upload) the Metrics Report using the Data.ComReg portal – Scam Metrics – Current Data Request by the deadline date (no later than 10 working days from the final day of the calendar month).</p>
	<p>Check submission feedback from ComReg.</p> <p>The Data.ComReg portal will automatically validate your submission. Any errors will be reported by email. Correct any errors and resubmit.</p> <p>Check metrics report has successfully been Accepted by ComReg.</p>
	<p>Repeat every month</p> <p>Repeat the same process by the deadline date every month.</p>

2 Accessing Data.ComReg

Access to Data.ComReg can be granted in the following manner:

(1)	You do <u>not have an existing ComReg Account.</u>
	If you do not have any existing ComReg Account, (for example: SMS SenderID Registry; eLicensing etc) you will receive an automatic ACTIVATE ACCOUNT email from DoNotReply@comreg.ie if your details have been provided to the ComReg Network Trust team and they have created your account, or your own organisation's Data.ComReg main contact has similarly done so.
	Please follow the section 2.1 Activating Your Account
OR	
(2)	You <u>have any existing ComReg Account.</u>
	<p>If you have an existing ComReg Account (for example: SMS SenderID Registry; eLicensing etc) an automatic email (<i>Account Activation</i>) will NOT be sent to you.</p> <p>If your details have been provided to the ComReg Network Trust team and they have created your account, or your own organisation's Data.ComReg main contact has similarly done so, you can use your existing ComReg Account credentials to access Data.ComReg.</p> <p>For example, you can use your existing login credentials that you use to access the SMS SenderID Registry to now access Data.ComReg.</p>
	Please follow the section 2.2 Logging In
	<p>In case of access issues:</p> <ol style="list-style-type: none"> 1) Please contact the ComReg Network Trust team at metrics.reporting@comreg.ie 2) Alternatively, your organisations Data.ComReg main contact person can assist you as they are able to administer (create etc) accounts.

2.1 Activating Your Account

	<p>If you do <u>not have any existing ComReg Account</u> (for example: SMS SenderID Registry; eLicensing etc), you will receive an automatic ACTIVATE ACCOUNT email from DoNotReply@comreg.ie if your details have been provided to the ComReg Network Trust team and they have created your account, or your own organisation's Data.ComReg main contact has similarly done so.</p>
<p>1.</p> 	<p>The ComReg Network Trust Team will provide your login credentials via email.</p> <div data-bbox="341 680 1024 1509" style="border: 1px solid #0070C0; padding: 10px; margin: 10px 0;">  <p>Commission for Communications Regulation</p> <p>Dear New Customer,</p> <p>Your new ComReg Account has successfully been created.</p> <p>Your details are as follows:</p> <p>Email Address: new_customer@data.comreg</p> <p>Creation Date: 11/11/2025 9:47:29 AM</p> <p>In order to activate your online account and for you to set a Password for future online access your new password must be at least 7 characters long, contain at least one number and one special character.</p> <p>Please click the following button to activate your account:</p> <div style="text-align: center; margin: 10px 0;"> <div style="background-color: #0070C0; color: white; padding: 5px 15px; display: inline-block; border: 1px solid #0070C0;">ACTIVATE ACCOUNT</div> </div> <p>Please copy and paste the following url into your browser address bar if this email is not rendering correctly:</p> <p style="font-family: monospace; font-size: 0.9em;">https://pt-data.comreg.ie/password/set?email=new_customer@data.c omreg&token=Q2ZESjhQYjNyZDFaMHP4Sm1pbmNCNnZBdVVQd1NiK3 NRSk94aWE1Sng4MUFjdXFLRDBTRUZWcDdiaDIENFNvQURCbUwwSm 1UZUdpa0sxM2wvdDJwREE4cjhLVGpEemtlcUpyb0ZZd3lvZldVK2xnbkRs elpzNnpWRlpCYnZYdHJ6aFd1dDg3VlkYdZ5SDM4azg4SW5KWm5Canh IZTBvdzJtM2I4SThWTTNVT054Q05XRHZIKzhbVNHd1BmbXQzQ1BGOFG 4NW5qeUkvUTF2VzlyS0dEanpQOEJGY0VQL00vbkJLRlM3eTVOVVhXVVR NOG1ZC9vU2UwdlM5UUJNy9RN2Z3dz09</p> <p>If you have any queries please reply to this email.</p> <p>Sincerely, The ComReg team</p> </div> <p>If you have not been issued these, please contact: metrics.reporting@comreg.ie</p>
<p>2.</p>	<p>Click ACTIVATE ACCOUNT link in the activation email.</p> <div data-bbox="341 1733 865 1890" style="border: 1px solid #0070C0; padding: 10px; margin: 10px 0;"> <p>Please click the following button to activate your account:</p> <div style="text-align: center; margin: 10px 0;"> <div style="background-color: #0070C0; color: white; padding: 5px 15px; display: inline-block; border: 1px solid #0070C0;">ACTIVATE ACCOUNT</div> </div> </div>
<p>3.</p>	<p>Enter a new Password.</p>

	<div>Confirm your new Password.</div> <div><div><div>Set New Password</div><div><div>Enter new Password*</div><div>Confirm new Password*</div><div>SET NEW PASSWORD</div></div></div></div> <div><div>The password must:</div><div><div>a) be at least 7 characters in length</div><div>a) include at least 1 number</div><div>b) include at least 1 of the following special characters: # ? ! @ \$ % ^ & * -</div></div><div><u>Note: other special characters do not work.</u></div><div>Click SET NEW PASSWORD to complete the activation setup.</div><div>Click Return to Log In.</div><div><div><div>Set New Password</div><div><div>Password reset successfully.</div><div>Return to Log In</div></div></div></div></div>
<div>4.</div> <div></div>	<div>Enter your credentials Email Address and Password and then click Log In.</div> <div><div><div><div>Email Address*</div><div>Password*</div><div>Required</div><div>Forgotten Password?</div><div>Log In</div><div>Don't have an account? Sign up</div></div></div></div> <div>(Use the Forgotten Password? button if you need to reset your password).</div>
<div>5.</div> <div><div></div></div>	<div>Open the multi-factor authentication (MFA) form (first-time login).</div> <div>Open the Authenticator App on your Smartphone.</div>

Authenticator Code

Using an authenticator application on a smart phone or tablet, scan this QR code:

Alternatively, enter this key:
XO3TF34LDF75VBHU565UQ8RRL7IMSZ

Now enter the 6 digit code from the authenticator application:

Cancel log in

Confirm

I do not wish to setup MFA at this time

Verified IDs

Accept a Verified ID for more control of your identity

Some websites and organizations now offer Verified IDs. They make account setup simpler and safer, while giving you more visibility and control over your personal data.

A website typically offers a Verified ID through a QR code. Scan the code to get started.

4.2 Download Schemas via web link

The Schema's may also be downloaded using the following links.

Go to the <https://www.comreg.ie/> website.

Open the [Nuisance Communications](#) page.

Select the [Scam and SMS Metrics Guidance Documents](#) section.

<https://www.comreg.ie/industry/electronic-communications/nuisance-communications/scam-call-and-sms-metrics-guidance-documents/>

Choose the required template type.

Click on relevant Schema to download.

4.5 Completing SMS Metrics Excel XLSB Template

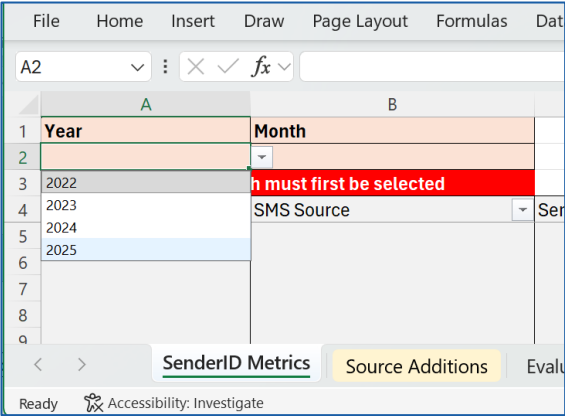

Follow these instructions and refer to the section *Excel XLSB Template Guidance* to fill in your SMS metrics monthly report using the Excel XLSB schema. (Refer to the Data Dictionary for definitions).

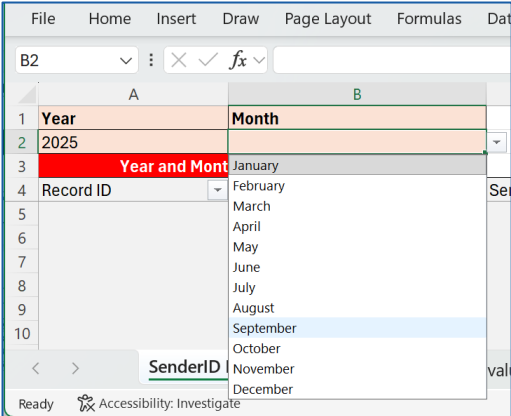

1.

Select the **SenderID Metrics** sheet.

Select the **Year** and **Month** from the drop-down lists.

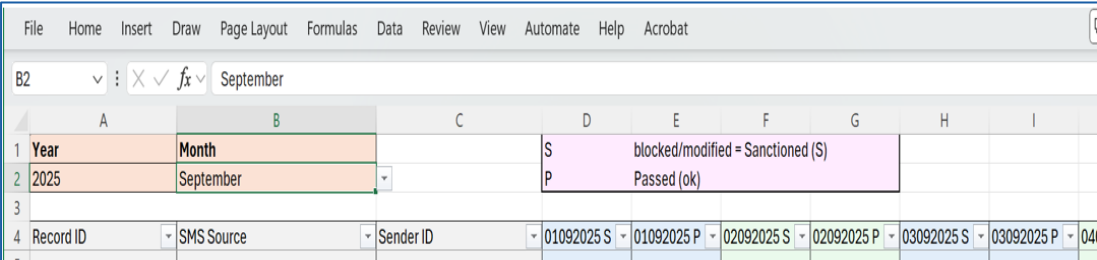

Note: Selected Month/Year **must match the Current Data Request** in the Scam Metrics Portal.

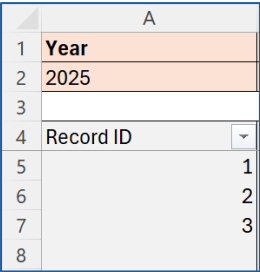

3.

The sheet will auto populate all the days of the selected year/month:

4.

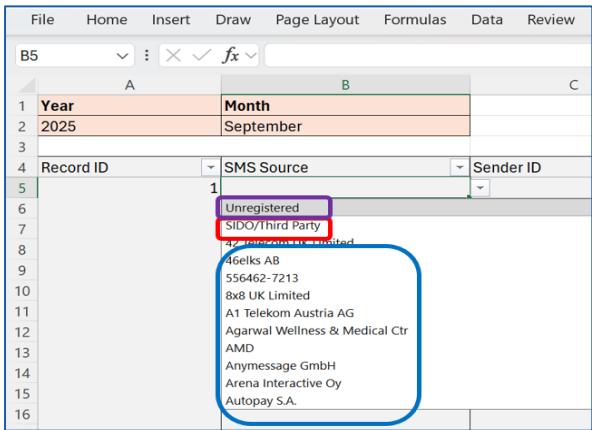

Insert a unique **Record ID** for each of your line entries.

Record ID must be unique, up to 50 characters, alphanumeric and only with special characters (space) (.) (#) (/) (\) (_) (-)

Page 30 of 45

5. Select the relevant **SMS Source** from the drop-down list.

Pick one of the three options for each Record ID (row):

- 1. Select 'SIDO/Third Party' where PA is acting as a OPA with directly connected SIDO/Third Party (org name not required).
- 2. Select from the drop-down list the org name of the registered PA that sent you the message with that SenderID.
- 3. Select 'Unregistered' when the source is not on drop down list.

6. Insert the **SenderID** plus the **Sanctioned (S)** or **Passed (P)** values for each day.

Note: Do not leave any Sanctioned (S) or Passed (P) entries blank (if no data, enter zero), otherwise the Submit (Upload) will fail.

7. Example of a completed SenderID Metric sheet:

Year	Month	Record ID	SMS Source	Sender ID	01092025 S	01092025 P	02092025 S	02092025 P	03092025 S	03092025 P
2025	September	1	SIDO/Third Party	test1	0	10	0	10	0	10
		2	SIDO/Third Party	test2	0	11	0	11	0	11
		3	Unregistered	A	1	0	1	0	1	0
		4	Unregistered	DW	1	0	1	0	1	0
		5	Unregistered	abcdefghijklmnpqrstuvwxy	1	0	1	0	1	0
		6	Unregistered	unreg	1	0	1	0	1	0
		7	Commify UK Limited	test3	0	11	0	11	0	11
		8	SIDO/Third Party	test4	0	11	0	11	0	11
		9	SIDO/Third Party	test5	0	10	0	10	0	10
		10	AMD	test6	0	11	0	11	0	11
		11	SIDO/Third Party	test7	0	11	0	11	0	11
		12	Sinch Sweden AB	test8	0	11	0	11	0	11
		13	Sinch Sweden AB	test9	0	11	0	11	0	11

8. The **Source Additions** sheet is OPTIONAL.

This sheet can be used in cases where the **SMS Source** has been recorded as **Unregistered** in the SenderID Metrics sheet.

For instance, if you are receiving traffic from a non-participating aggregator the name of that **Unregistered Aggregator** can be included here.

	A	B	C
1	Year	Month	
2	2025	September	
3			
4	Record ID	SMS Source	Sender ID
5	202509-1	SIDO/Third Party	test1
6	202509-2	SIDO/Third Party	test2
7	202509-3	Unregistered	A
8	202509-4	Unregistered	DW
9	202509-5	Unregistered	abcdefghijklmnopqrstuvwxyz
10	202509-6	Unregistered	unreg
11	202509-7	Commify UK Limited	test3

The **Record ID** in the **Source Additions** sheet must match the **Record ID** in the **SenderID Metrics** sheet:

	A	B	C
1	Source Type	Source Name	Record ID (from 'SenderID Metrics' tab)
2	Unregistered Aggregator	Non-Participating Aggregator X Limited	202509-03
3	Unregistered Aggregator		
4	Unregistered SIDO		
5	Unregistered SenderID		
6	Third Party		

Use the other **Source Type** options in the drop-down list where relevant.

9. **SAVE** the sheet.

4.6 Completing Call Metrics Excel XLSB Template

Follow these instructions and refer to the section *Excel XLSB Template Guidance* to fill in your Call metrics monthly report using the Excel XLSB schema. (Refer to the Data Dictionary for definitions).

1.

Select the **Call Metrics** sheet.

Select the **Year** and **Month** from the drop-down lists.

A	B	C
1	Year	Month
2		
3	2022	must first be selected
4	2023	DNO Blocked
11	2024	
12	2025	
13		
14		
15		
16		
17		

A	B
1	Year
2	2025
3	Year and Month n
4	Date
11	January
12	February
13	March
14	April
15	May
16	June
17	July
18	August
19	September
20	October
21	November
22	December

Note: Selected Month/Year **must match the Current Data Request** in the Scam Metrics Portal.

3.

The sheet will auto populate all days of the selected year/month. Example:

A	B	C
1	Year	Month
2	2025	September
3		
4	Date	DNO Blocked
5	01092025	
6	02092025	
7	03092025	
8	04092025	
9	05092025	
10	06092025	
11	07092025	
12	08092025	
13	09092025	

4

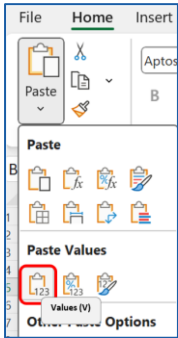

Enter your daily measured values in each of the relevant columns.

Example of a completed sheet:

[illegible]

4.7 Excel XLSB Template Guidance

The following guidance may assist you in achieving an error free submission.

1.	<p>The templates (schemas) incorporates a macro. Your organisation's security policy may not allow you to <i>Enable</i> the macro.</p> <p>The macro forces a <i>Paste Special <u>with Values</u></i> when the <i>Copy & Paste</i> function is used.</p> <p>If the macro cannot be <i>Enabled</i>, then when copying from another source, (for instance, another separate sheet) and pasting into the template, always remember to use the <i>Paste Special with Values</i> option:</p> 
2.	<p>It is best practice to always download the latest schema for each month's submission.</p> <p>It is envisaged that the Call Metrics schema will very rarely be updated.</p> <p>It is envisaged that the SMS Metrics schema will be updated more frequently: specially when new Participating Aggregators are approved, the SenderID Metrics tab, SMS Source drop-down list will be updated. Similarly, if the Participating Aggregator is withdrawn or revoked the SMS Source drop-down list will be update.</p> <p>Note: If a Participating Aggregator (PA) is withdrawn or revoked, it will not be removed from the SMS Source drop-down list until the month after it was withdrawn or revoked.</p>
3.	<p>Do not fill any data in the sheets outside of the requested field ranges. For instance, if a month contains 30 days, do not by mistake, fill in data for a 31st day.</p>
4.	<p>Do not leave any requested fields blank. If there is no data, fill in with a 0 (zero).</p>
5.	<p>Always ensure the Year and Month in the template matches the Year and Month requested in the Current Data Request.</p>
6.	<p>When filling in the Schema, if a Non-Participating Aggregator (NPA) becomes approved as a Participating Aggregator (PA), please enter the SMS source as the</p>

	<p>PA name from the drop down in the SMS Source column or the mi-lookups xsd file. For dates up to when it became approved, count its sender IDs in the sanctioned column. After the date it became approved, please count its sender IDs in the pass column (ensuring the sender IDs are approved in the registry).</p> <p>There is no need to download old metric files and retrospectively update the rows with the new PA that had been previously noted as unregistered.</p>
--	---

4.8 Request a Report Resubmission

You may [Request a Resubmission](#) of a metrics report you have already submitted.

1	<p>Select Request Resubmission within Current Data Request.</p> <table><thead><tr><th>Status</th><th>Actions</th></tr></thead><tbody><tr><td>Pending</td><td>Schema</td></tr><tr><td>Pending</td><td>Schema</td></tr><tr><td>Submitted</td><td>Submitted File Request resubmission</td></tr></tbody></table>	Status	Actions	Pending	Schema	Pending	Schema	Submitted	Submitted File Request resubmission		
Status	Actions										
Pending	Schema										
Pending	Schema										
Submitted	Submitted File Request resubmission										
2	<p>Enter the Reason for resubmission</p> <div><div>Request Resubmission</div><div>Please specify a reason for requesting the resubmission of data request 124925-2025M9-SCM-CLM. Please note, ComReg will review your request shortly.</div><div>Reason* We made a mistake in the data; we wish to Submit again.</div></div> <p>Tick to Confirm request then click Submit.</p>										
3. 	<p>The ComReg Administrator will assess your request.</p> <p>Feedback of approval / rejection will be sent via email.</p>										
4.	<p>If approved, you may Submit again:</p> <table><thead><tr><th>Status</th><th>Actions</th></tr></thead><tbody><tr><td>Pending</td><td>Schema</td></tr><tr><td>Pending</td><td>Schema</td></tr><tr><td>Pending ⓘ</td><td>Schema Submit Submitted File</td></tr><tr><td>As per your request, please resubmit a file for this period.</td><td>Schema Submit Submitted File</td></tr></tbody></table>	Status	Actions	Pending	Schema	Pending	Schema	Pending ⓘ	Schema Submit Submitted File	As per your request, please resubmit a file for this period.	Schema Submit Submitted File
Status	Actions										
Pending	Schema										
Pending	Schema										
Pending ⓘ	Schema Submit Submitted File										
As per your request, please resubmit a file for this period.	Schema Submit Submitted File										

4.9 Download an already Submitted File

User may download a metrics report they have already submitted.

1.

Select Submitted File within Current Data Request

Status	Actions
Pending	Schema
Pending	Schema
Submitted	<div>Submitted FileRequest resubmission</div>
Pending 	<div>SchemaSubmitSubmitted File</div>

2.

Select Download File

Status	Actions

Appendix 1: Submit (Upload) Error Codes

After submitting your metric report, you may receive feedback on errors that need correcting before submitting your report again. Use these descriptions to assist you in correcting the errors.

General Validation Rules

If the submitted file cannot be read:	
Error	Error 0001 - Error reading submitted file: {ErrorMessage}
Instructions	This error occurs when the system cannot read the file you submitted. Please check the file format or try resubmitting.
Case where an invalid file type is submitted (only .xlsx, .xlsb allowed, or a zip file containing same):	
Error	Error 0002 - Invalid file type on submission: '{FileExtension}'.
Instructions	Only xlsx, xlsb, or a zip file containing these formats are allowed. Please check your file type and submit the correct one.
Case where the .xml submitted does not match the schema type (i.e. submitting a Retail type xml for a Network Data Request):	
Error	Error 0004 - The submitted file is in an incorrect format, or it was submitted for the wrong submission type.
Instructions	The zip file should contain a file with the correct extension and the required data. Please check the contents and the correct month and year of submission data.
Case where the Excel file contains any #N/A or #REF cell value on the normalised sheets:	
Error	Error 0050 - The excel file contains at least one invalid cell value. Please recreate the file using the latest template and submit it again.
Instructions	The Excel file contains invalid cell values (e.g., #N/A, #REF) on the SMS/Call Metrics sheet. Please use the latest template and correct the errors before resubmitting.
Case where the .zip file is corrupted:	
Error	Error 0085 - The submitted .zip file is corrupted. Please recreate the .zip file and submit it again.

Instructions	The system was unable to process your zip file because it appeared to be corrupted or unreadable. Please create a new zip file using the correct format and try uploading it again.
Case where the .zip contains multiple files, and the market doesn't accept it (e.g. a fixed broadband zip with multiple files is invalid):	
Error	Error 0103 - The .zip file for {MarketName} must contain only one file.
Instructions	The zip file should only contain one file. Please check the contents and submit the zip file with a single file.
Case where the file inside the .zip is not allowed for the market (e.g. a fixed broadband zip with a .doc inside):	
Error	Error 0104 - The .zip file for {MarketName} must contain a file from the following extensions: {extensions}.
Instructions	The zip file must contain only the allowed file types. Please ensure that only the correct file types (e.g., xlsx, xlsb) are inside the zip.
Case where a .zip does not contain a required file for that market (e.g. a network map that does not contain an allowed map file type among the files in the zip):	
Error	Error 0105 - The .zip file for {MarketName} must contain at least one file with the following extensions: {allowed extensions}
Instructions	The zip file must contain at least one file without the following extensions: .xls, .xlsx, .xlsb. Please add the missing file and try again.
Case where the Excel does not contain the columns IsBADCheck or IsBADResult on the Lookup worksheet:	
Error	Error 0249 - We note that you are using a previous version of the data request template, please ensure you use the latest schema/template. This is available to download from data.comreg.ie.
Instructions	The Excel file contains an outdated version of the data request template. Please use the latest template that includes the columns IsBADCheck and IsBADResult on the Lookup worksheet.
Case submitted file has no data filled on it:	
Error	Error 0108 - The submitted file has no data.
Instructions	The file submitted has no data. Please ensure the file contains the required information and submit it again.

SMS Metrics Validation Rules

Where the SMS Metrics Operator ID is NOT equal to the ERAU ID:	
Error	Error 0453 - SMSOID (SMS Metrics Operator ID) must match the account doing the submission. You can find your SMS Metrics Operator ID in the schema lookups
Instructions	The file submitted contains an Operator ID that does not match the account doing the submission. Please check the Operator ID in the schema lookups.
Where the SMS Metrics Operator ID is EQUAL to the ERAU ID AND the SMS Metrics Operator lookup contains the SMS Metrics Operator ID:	
Error	Error 0454 - SMSOID (SMS Metrics Operator ID) must be a valid SMS Metrics Operator. The Operator ID entered is not a recognised SMS Metrics Operator.
Instructions	The file submitted contains an invalid Operator ID. Please check the Operator ID in the schema lookups.
Where the starting Month is NOT equal to the Submission Month OR the starting Year is NOT equal to the Submission Year:	
Error	Error 0458 - The Month/Year entered does NOT match the Data Request period submitted.
Instructions	The file submitted contains Month/Year values that do not match the Data Request period submitted. Please check the specified Month/Year and make corrections according to the Data Request period.
Where the Call Metrics List is empty (the file has no data):	
Error	Error 0108 - The submitted file has no data.
Instructions	The file submitted has no data. Please ensure the file contains the required information and submit it again.
Where SenderID Length is greater than eleven characters:	
Error	Error 0455 - ID (RecordID): [recordID], SID (SenderID) max length cannot be greater than 50 characters.
Instructions	The file submitted contains a Sender ID whose length exceeds the 50 characters allowed. Please correct the Sender ID and resubmit.
Where the number of days in the month is equal to 28 AND either days 29th, 30th, 31st Sanctioned or Passed has value OR The number of days in the month is equal to 29 AND either day 29 Sanctioned or	

<p>Passed does NOT have value OR days 30th, 31st Sanctioned or Passed has value, OR</p> <p>The number of days in the month is equal to 30 AND either days 29th, 30th Sanctioned or Passed does NOT have value OR Day 31st Sanctioned or Passed has value, OR</p> <p>The number of days in the month is equal to 31 AND either day 29th, 30th, 31st Sanctioned or Passed does NOT have value:</p>	
Error	Error 0456 - ID (RecordID): [recordID], the data doesn't match the number days in the selected month.
Instructions	The file submitted contains data for days that do not exist in the selected Month/Year. Please review the columns Sanctioned and Passed and remove or correct any values for non-existent days, ensuring only valid days for the month are included.

Call Metrics Validation Rules

Where the Call Metrics Operator ID is NOT equal to the ERAU ID:	
Error	Error 0446 - CLMOID (Call Metrics Operator ID) must match the account doing the submission. You can find your Call Metrics Operator ID in the schema lookups
Instructions	The file submitted contains an Operator ID that does not match the account doing the submission. Please check the Operator ID in the schema lookups.
Where the SMS Metrics Operator ID is EQUAL to the ERAU ID AND the SMS Metrics Operator lookup contains the SMS Metrics Operator ID:	
Error	Error 0447 - CLMOID (Call Metrics Operator ID) must be a valid Call Metrics Operator. The Operator ID entered is not a recognised Call Metrics Operator
Instructions	The file submitted contains an invalid Operator ID. Please check the Operator ID in the schema lookups
Where the starting Month is NOT equal to the Submission Month OR the starting Year is NOT equal to the Submission Year:	
Error	Error 0458 - The Month/Year entered does NOT match the Data Request period submitted
Instructions	The file submitted contains Month/Year values that do not match the Data Request period submitted. Please check the specified Month/Year and make corrections according to the Data Request period

Where the Call Metrics List is empty (the file has no data)	
Error	Error 0108 - The submitted file has no data.
Instructions	The file submitted has no data. Please ensure the file contains the required information and submit it again.
Where the length of the Call Metrics submissions is NOT equal to the number of days in the given month, OR the first day is NOT equal to 1:	
Error	Error 0448 - ID (RecordID): [recordID], invalid RD (Date), month dates missing or out of order.
Instructions	The file submitted contains data for days that do not exist in the selected Month/Year. Please review the date and remove or correct any values for non-existent days, ensuring only valid days for the month are included.
Where the current Year submission record is NOT equal to the previous Year submission record, OR the current Month submission record is NOT equal to the previous Month submission record, OR the current Day submission record (minus 1) is not equal to the previous day submission record:	
Error	Error 0448 - ID (RecordID): [recordID], invalid RD (Date), month dates missing or out of order.
Instructions	The file submitted contains a mismatch in the submission dates: current Year does not match the previous Year, or current Month does not match the previous Month, or the current Day does not match the previous Day. Please review and correct the submission records accordingly.
Mandatory for designated Operators - currently BT, Colt, eir, Magrathea, Sky, Three, Verizon, Viatel, Virgin Media, and Vodafone.	
Error	Error 449 - ID (RecordID): [recordID], FCLI (Fixed CLI Blocked) is required.
Instructions	The file submitted contains missing required values in the Fixed CLI Blocked column. Please review and ensure all required fields are completed and resubmit.
Mandatory for designated Operators - currently BT, eir, Sky, Three and Vodafone.	
Error	Error 450 - ID (RecordID): [recordID], MCLI (Mobile CLI Blocked) is required.
Instructions	The file submitted contains missing required values in the Mobile CLI Blocked column. Please review and ensure all required fields are completed and resubmit.

Mandatory for designated Operators - currently Three, eir, Vodafone and Virgin Media	
Error	Error 451 - ID (RecordID): [recordID], VFB (Voice Firewall Blocked) is required.
Instructions	The file submitted contains missing required values in the Voice Firewall Blocked column. Please review and ensure all required fields are completed and resubmit.
Mandatory for designated Operators - currently Three, eir, Vodafone and Virgin Media.	
Error	Error 452 - ID (RecordID): [recordID], VFM (Voice Firewall Modified) is required.
Instructions	The file submitted contains missing required values in the Voice Firewall Modified column. Please review and ensure all required fields are completed and resubmit.

Appendix 2: XML File Descriptions

There are three files used to construct the monthly XML file for submission:

<p>ScamMetric_SMSMetricsOperator_<year>M<month>.xsd</p>	<p>The ScamMetric_SMSMetricsOperator_<year>M<month>.xsd is the XML schema definition (XSD) that defines the files and constraints for the XML to be submitted.</p> <p>A new .xsd file will be issued each month with a new namespace specified, but the rest of the .xsd file will not change unless new fields are added, for which there is no plan.</p> <p>This .xsd file also references the mi-datatypes_<year>M<month>.xsd.</p>
<p>mi-datatypes_<year>M<month>.xsd</p>	<p>The mi-datatypes_<year>M<month>.xsd file is a shared datatype file with the Voice metrics and defines the datatype of the elements in the ScamMetric_SMSMetricsOperator_<year>M<month>.xsd file.</p> <p>A new .xsd file will be issued each month based on that month's filename. There will be no change to the structure of the file unless new fields are added, for which there is no plan.</p> <p>This .xsd file also references the mi-lookups_<year>M<month>.xsd</p>
<p>mi-lookups_<year>M<month>.xsd</p>	<p>This .xsd file defines the SMSMetricsSource possible values that can be populated into that element in the created XML.</p> <p>This file will be updated when there is a new PA added or removed. However, this will not change your XML script.</p> <p>If your organisation accepts traffic from a newly added PA, then you would need to make sure the name matches the enumerated name for that PA in this file.</p>
