The ITRS ensures that those of us who are deaf, hard-of-hearing or speech-impaired, are able to make and receive calls independently.

## How ITRS works

## Take up and usage statistics\*

In 2025 there were a total of **2680 TTV calls**, a decrease of 333 from 2024.

VTT calls **decreased** from 60 in 2024 to 48 calls in 2025.

## Quality of Service Indicators

**Abandoned calls** means the rate at which end-users of ITRS cancel an attempt to make an ITRS call via the ITRS service. The abandoned call rate for ITRS calls is no more than 5% of calls per calendar month.

**Service level** is measured by the percentage of calls answered by the ITRS agent within 20 seconds of the call being made to them.
