1 Introduction

1. The Commission for Communications Regulation (**ComReg**) has received a request from BT Ireland for a copy of the Draft Mobile Termination Rate Bottom Up Pure Long Run Incremental Cost Model (**Draft BU Pure LRIC Model**) which was provided to the mobile service providers (**MSPs**) designated with significant market power (**SMP**) in Market 7.
2. ComReg has now provided BT Ireland with a copy of the non confidential Draft BU Pure LRIC Model.
3. If other interested parties, directly affected by the mobile termination rate (**MTR**) Consultation ComReg Document No 14/29, wish to avail of the non confidential Draft BU Pure LRIC Model, a formal application can be made to ComReg for consideration.

Appendix: 1 BT Ireland Request

To: Samantha Mooney
Subject: BT formal request for the MTR models

Samantha,

As discussed BT is a stake holder in the use of MTRs – i.e. we are a significant paying customer for these services and the level of the MTR has a direct impact on our business in Ireland and around the World. ComReg has initiated a public consultation as part of its process to set the calculated MTR value and we are considering the consultation. To assist our review we are therefore formally requesting a copy of the model so that we are in an informed position to comment to the consultation.

Many thanks

John O'Dwyer
