1 ComReg Consumer Care

The role of ComReg's Consumer Care is to inform consumers on communication issues and escalate complaints made to electronic communications ("ECS" – broadband, home phone, and mobile phone), postal, and premium rate service providers ("PRS").

ComReg's Consumer Care manages consumer contacts in relation to ECS, PRS and postal services. ComReg's Consumer Care classifies each contact it receives as either a query or a complaint. A "query" is where the consumer contacts ComReg for information or advice, and ComReg is not required to engage with their Service Provider, and a complaint is defined in ComReg Decision 10/25¹. When ComReg raises issues with Service Providers further contacts to and from Service Providers may follow during the process of resolving issues. Normally ComReg can only raise an issue with a Service Provider if the consumer has already lodged a formal complaint with their Service Provider, and, after 10 days the issue remains unresolved. See [How ComReg Can Help](#) for further information.

This publication² includes information on issues raised to ComReg by service providers' customers and recorded by ComReg in Q2 2026.^{3,4}

¹ 'Complaint' means an issue raised by an end-user to a Provider through one of the complaint handling channels in the Provider's code of practice for complaints handling or an issue that is otherwise handled by the Provider in accordance with section 5.1.3(i) of [this Decision Instrument](#) relating to the Provider's product, service, or its complaint handling process (which includes difficulty experienced making a complaint) and either:

(a) the issue remains unresolved following an initial attempt by the Provider to resolve it and the end-user expresses dissatisfaction, or

(b) there has been no attempt by the Provider to resolve the issue and 2 Working Days have elapsed since the issue was raised to the Provider by the end-user; in such circumstances the issue will be deemed to be a Complaint from the day the issue was raised to the Provider by the end-user. It shall not be necessary for an end-user to use a particular word or formula of words to make a Complaint.

² From Q3 2022, this publication has been re-named from "Consumer Line Statistics Report" to "Consumer Care Statistics Report".

³ The basis for inclusion is where the total number of ECS and PRS issues recorded in the relevant quarter is in excess of 100 and 40, respectively.

⁴ ECS providers are referred to in this report as per their trading name on the [ComReg Service Register](#).

Figure 1: Split of contacts to ComReg's Consumer Care by Channel Q2 2025 – Q2 2026

⁵ The contact channel ‘Other’ includes contacts received by letter and SMS. For further details on ComReg’s Consumer Care contact channels, see Annex 1.

3.2 Consumer Care Survey

Consumers who contact ComReg Consumer Care via phone are presented with the option to provide feedback through a phone or e-mail survey. The survey consists of four questions, three of which pertain to the consumer's experience with ComReg (for queries and complaints), and one of which pertains to the consumer's experience with their operator (for complaints only). Consumers are asked to rank their responses using a scale of 1 to 5⁶.

In Q2 2026, consumers completed 326 phone surveys in relation to queries, 252 phone surveys in relation to complaints, and 57 e-mail surveys in relation to complaints. Figure 2 below outlines the questions contained in the survey and the average ratings received in Q2 2026.

Consumer Care Survey

Figure 2: Consumer Care Survey ratings Q2 2026

⁶ Consumers respond to the questions outlined in Figure 2 by pressing 1 – 5 on their telephone keypad (for telephone surveys), or by selecting a rating of 1 – 5 through a weblink (for e-mail surveys). 1 is the lowest option available to choose, thus expressing dissatisfaction, and 5 is the highest option, expressing satisfaction.
